

BUY TO CHARTER

For over 10 years, Sol y Mar Marine have offered the option to buy a boat for charter in the Mediterranean. Our history tells us charter is a very sensible way to off-set the unwanted expenses of owning your own boat whilst still enjoying all the benefits boating brings.

Why leave your boat for weeks on end without using it when it is possible to get good revenue, which could pay for all the incidental expenses like moorings, engineering, cleaning & general maintenance.

Our policy is never to look at charter as a means of guaranteed revenue - if you're advised correctly and buy a boat that fits your needs and the desires of the charterer, then it is more than likely, with good management, that your future boating will be free, less stressful, more fun, whilst maintaining your bank balance and not the boats. Hmmm food for thought!

Imagine having the flexibility to use your boat when you want and then have a management team taking care of your prized possession, whilst earning you good revenue which you completely control at all times... too good to be true? Well, for ten years, we have done exactly that! With many happy customers having the ability to enjoy their boats & renew them on a regular basis. Our service is simple; we are major dealers for established brands so we can hopefully offer you one of these options which we know has a proven track record and works on charter.

Flexibility allows us to also manage your purchase so that you buy the right boat, no matter what the brand - that suits you, your family, your requirements and us, your charter agents. We take you through every step to ensure the boat is completely legal, meets the requirements of charter and maximizes the earning potential. We offer realistic forecasts on what the boat may achieve and what you may expect in return.

Our location is mainland Spain & the Balearic Islands so this offers the very best charter grounds that potential customers will want to see. Our affiliation with the Royal Yachting Association ensures our staff are capable and trained to instructor level, so your boat is in the very best hands whilst in our care. Effectively, we tailor make your charter package, combining our knowledge and expertise with your ideas and private needs on any boat.

We are without doubt experts within the field of charter and can fully maximize the potential of your boat.

SIMPLY CONTACT US IF YOU ARE THINKING OF THE CHARTER OPTION & SOL Y MAR MARINE WILL OPEN THE DOOR TO CHEAPER & LESS STRESSFUL BOATING.
